Custom Gate Kit Ordering Guide

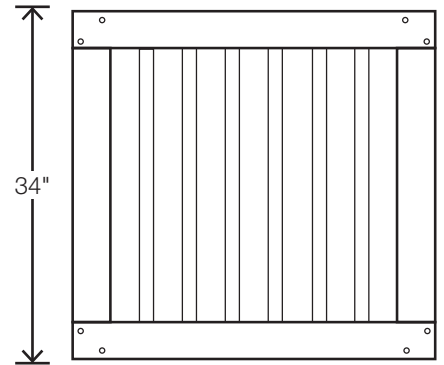

CUSTOM WIDTH GATE (SINGLE OR DOUBLE)

Custom Gates can be ordered in either 36" finished height (with 2" bottom spacing) or 42" height (with 2" bottom spacing) in the colors and baluster options below in the table.

Custom single gates can be ordered to fit a maximum opening of 49.5" wide (49.5" opening will use (1) 48" wide gate + (1) 1" latch + (1) ½" hinge).

Custom double gates require a drop rod to create a fixed point for the operating gate to latch to, both gates can be opened when required. Custom double gates can be ordered to fit a maximum opening of 98" wide (98" opening will use (2) 48" wide gates + (1) 1" latch + (2) ½" hinges).

All gate kits are either left or right swing, will be shipped un-assembled, and are set up for Boerboel® hardware. Due to the nature of custom sized gates, all orders are final and non-returnable. All gates will be manufactured to the exact size needed for the Boerboel hardware sold separately. The finished opening dimension will be used for gate identification, and will be written on each custom gate kit box.
